Weekly report 6

Total working hours - 12.

Tasks completed:

- Forgotten one from previous week: Code review (katselmointi4.txt)

- Wrote & ran test cases for integration tests. Fixed a problem that arose when running on melkki.

- Wrote & ran test cases for performance tests.

- Made pictures on performance tests.

- Refactored source code per peer review.

Progress on the software:

- Interoperability problem solved (albeit on a bootleg way).

Learned:

- Not everything works as documented (in this case, ftruncate(2)). Alternatively, failure to invoke that particular magic in a right way.

Unclear / problems:

- Nada.

Next:

- Code review (katselmointi5.txt)
